Swift Series Thermal Cyclers, MiniPro®

## Thermal Cyclers

The Esco Swift MiniPro® thermal cycler is a low cost personal thermal cycler with a compact footprint, suitable for a variety of critical experimental applications, such as Touch Down PCR, Time Release PCR and others. The Swift MiniPro® thermal cycler uses advanced Peltier technology to achieve precise temperature control and fast ramp rates with minimal over- and under-shoot for process speed and accuracy.

### Superior Performance

#### Excellent Temperature Uniformity

Unique IsoHeat™ temperature control technology guarantees extremely uniform temperature between central and edge wells. Block temp. uniformity is <0.3°C.

#### High Temperature Precision

Precisely tuned and tested AeonStar™ peltier, temperature sensor, and proprietary control algorithms provide highest temperature accuracy. Block temp. accuracy is <0.3°C.

#### Outstanding Ramp Rate

Proprietary aluminum block with superior thermal conductivity properties delivers superb heating and cooling performance, equal to the gold blocks of other brands. High ramp rate of up to 5.0°C / sec.

### Convenience

#### Compact Footprint

User-friendly ergonomic design, small footprint to conserve available bench top space. Lightweight - only 3.2 kg (7 lbs).

#### Convenient Setup, Fast Run

Pre-programmed methods are available for your convenience or you can enter thermal cycling values to program your own methods.

#### Friendly Interface

Large screen shows all information on one page. Easy, graphical programming for temperature, holding time, ramp rate, pause and other functions ensures intuitive operation.

#### Adjustable Hot Lid

Prevents reagents from evaporating. Hot lid height is adjustable to suit all kinds of tubes.

#### Adjustable Ramp Rate

High ramp rate of up to 5.0°C/sec. Suits all reagents. Allows protocols to be transferred from other cyclers.

### Stability

#### Robust Security

Automatic restart saves setpoints and guarantees successful PCR cycling in the event of power interruption.

#### Long Warranty Period, Peace of Mind

The Peltier module, electronics and sensors are precision tuned and tested to ensure the longest operating lifespan possible. Backed by an industry leading 3 year warranty for main body, 2 year warranty for block.
